

ERIK BEHNKE

Software Developer

I appreciate diligence and constantly strive to produce meaningful results. Software development demands that diligent attitude and rewards it with expanded knowledge. The struggle of solving a difficult programming problem is something I've begun to subtly respect. Those situations are routinely encountered as a software developer and I'm excited to begin sharing those experiences with others.

SKILLS

HTML - CSS - Bootstrap - Materialize - JavaScript - jQuery
- API Implementation - Java - MySQL - Maven - Spring Boot
- IntelliJ - Git - Paired Programming

MILITARY EXPERIENCE - US ARMY

Platoon/Operations Sergeant

Fort Sam Houston, TX | 2015 - 2019

- Top graduate of the Advanced Leadership Course, scoring highest among 40 peers in categories including: leadership, written and oral communication, air and missile defense proficiency, and training.
- Used technical expertise to integrate data between three Army and Air Force echelons, enabling the commander of US Army South to view accurate, real-time air asset data in a deployed or stateside environment.
- Responsible for training, accountability, and technical support of 20 military and civilian personnel.

Logistics Manager & Missile Warning Specialist

Al Udeid Air Base, Qatar | 2014

- Oversight and management of a remote communication site. Trusted to ensure seamless operation and security of equipment in excess of >\$300 million and over 50 personnel.
- Team leader directly responsible for 3 personnel, training for 14 personnel, and 24/7 operations of a globally integrated missile defense system.

Radar Operator & Admin/Academics Manager

Fort Lewis, WA | 2010 - 2013

- Managed and recorded training and personnel records for 80 employees to satisfy Army requirements.
- Served as a technical expert on a team of six, designed to rapidly deploy a command and control post in austere environment.

PROJECTS

Sitter Gitter Application

Full-Stack | Codeup | 2019

- Full-stack CRUD application using Spring Boot. Interface allows for babysitter schedule sharing, reviews, and search based on availability or location.

Adlister Application

Full-Stack | Codeup | 2019

- Created a full-stack application where users may create accounts, login, and post advertisements. Practiced object oriented fundamentals with implementation of JavaBeans, servlets, and .jsp files.

Contact Manager Application

Java | Codeup | 2019

- Paired programming project to create a terminal based java application. Users could create, read, edit, and delete contacts.

Movies Application

Javascript, jQuery, HTML, CSS | Codeup | 2019

- Team programming project to culminate all of our HTML, CSS, and JS knowledge. Increased proficiency of AJAX requests, REST API, and es6 elements.

ACADEMICS

Codeup

Full Stack Web Development | 2019

- A fully-immersive, project-based, and intensive 18 week full stack Java career accelerator that provides students with 600+ hours of expert instruction in software development.

Pierce College

General Studies | 2012-2019

- 3.84 GPA / 55 credits
